## Experience

Web Development Intern | Nova Nectar | Sept 2024

- Developed responsive web applications using HTML, CSS, and JavaScript.
- Collaborated on UI design and improved user experience.
- Practiced agile development methods in a virtual team environment.

Flutter Developer Intern | Techmindz, Carnival Info park, Kochi | July 2024

- Gained foundational knowledge of Flutter for cross-platform app development.
- Learned to build UI components and understand Dart basics.

AI Intern | AI for Engineers | Qnayds LLP | May 2024

- Learned foundational concepts in Artificial Intelligence and machine learning algorithms.
- Gained hands-on exposure through guided exercises in data analysis and model understanding.

## Projects

### Financial Assessment and Budget Tracking Website

- Built a budgeting and financial tracking web app.
- Tech Stack: Python, PHP, HTML, CSS, XAMPP.

### Travel Website

- Designed the frontend of a responsive travel site focused on UX and service discovery.
- Tech Stack: HTML, CSS, JavaScript, Figma.

### Let's Go | *Final Year Project (2025)*

- Developed a platform to promote underexposed natural sites through user-contributed content and community tourism.
- Added features like a chatbot for navigation and pollution campaign reporting.
- Enabled collaboration with local tourism offices to boost eco-tourism and conservation awareness.

### Game Development for Rahmaniya School

- Created educational and engaging games including Flappy Bird, Memory Matching Game, and Number Prediction Game for students with disabilities.
- Aimed to support learning and entertainment in an inclusive environment through accessible game design.
